WARNING:

Petitioner/applicant is cautioned to avoid submitting personal information in documents filed in a patent application that may contribute to identity theft. Personal information such as social security numbers, bank account numbers, or credit card numbers (other than a check or credit card authorization form PTO-2038 submitted for payment purposes) is never required by the USPTO to support a petition or an application. If this type of personal information is included in documents submitted to the USPTO, petitioners/applicants should consider redacting such personal information from the documents before submitting them to the USPTO. Petitioner/applicant is advised that the record of a patent application is available to the public after publication of the application (unless a non-publication request in compliance with 37 CFR 1.213(a) is made in the application) or issuance of a patent. Furthermore, the record from an abandoned application may also be available to the public if the application is referenced in a published application or an issued patent (see 37 CFR 1.14). RESUBMISSION OF RESPONSE TO DECEMBER 29, 2009 FINAL ACTION

&

PETITION UNDER 37 C.F.R. § 1.183

Office of Petitions
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Madam:

This paper is being submitted in response to the July 29, 2009 decision to dismiss the June 29, 2009 petition under 37 C.F.R. § 1.47, indicating that that petition should have been under 37 C.F.R. § 1.183.

As establish below, one of the joint inventors who had previously executed numerous declarations in this application, including a prior supplemental declaration, has refused to sign the current supplemental declaration. All other inventors have signed however.

Pursuant to MPEP 1414.01, applicant respectfully petitions the Commissioner under 37 C.F.R. § 1.183 to suspend the requirement under 37 C.F.R. § 1.175 that all of the inventors must sign the supplemental reissue declaration, and to waive the signature

requirement for the non-signing inventor. It is requested that, based on the following, the attached supplemental declaration be accepted and entered.

The June 29, 2009 petition include the fee set forth under 37 C.F.R. §1.17(g). The fee required for petition under 37 C.F.R. 1.183 is set forth under 37 C.F.R. §1.17(f). It is, therefore, believed that only the difference between the two fees (\$200) is required. Please charge that fee to Deposit Account No. 13-2855.

REMARKS

Claims 46-67 are pending and at issue. The office action and the subsequent February 11, 2009 advisory action have confirmed that claims 46-67 are allowable over the prior art.

The only rejection in this case is that of claims 46-67, which are rejected as based upon a defective reissue declaration. The office action acknowledges that the original reissue declaration filed with the parent reissue application lists specific errors corrected in the present divisional application. The office action points out, however, that additional errors (stemming from amendments during prosecution of this divisional application) are also now being addressed by the conditionally-allowed claims.

Accordingly, applicant has submitted herein an executed supplemental reissue declaration (now the third such supplemental) under 37 C.F.R. § 1.175(b) (*Ex. A*). The supplemental reissue declaration is executed by all of the inventors, except Ron Kurtz who has refused to execute. Thus, pursuant to 37 C.F.R. § 1.183 and the accompanying Statement of Facts of Richard A. Brandon (*Ex. B*), applicant petitions acceptance of the supplemental reissue declaration, and allowance of this application.

Mr. Kurtz executed the original reissue declaration in the parent application on July 22, 1999 (*Ex. C*). Mr. Kurtz subsequently executed two supplemental declarations in the present divisional application, one on February 24, 2004 (*Ex. D*), and another on September 15, 2007 (*Ex. E*). As indicated in the attached Statement of Facts (*Ex. B*), representatives for the assignee repeatedly contacted Mr. Kurtz beginning on or about February 2, 2009 of this

year to have Mr. Kurtz complete a third supplemental reissue declaration pertaining to amendments made to the claims in the fall of 2008 and early 2009. After repeated email communications with Mr. Kurtz, requesting that he execute the third supplemental reissue declaration, Mr. Kurtz would not sign. As indicated, the last attempt at reaching Mr. Kurtz was made June 29, 2009, via email, and Mr. Kurtz had refused to respond or otherwise provide an executed third supplemental reissue declaration.

An assignment of the invention in favor of The Regents of the University of Michigan has been previously submitted.

CONCLUSION

On the basis of these facts and for the foregoing reasons, it is solicited that the attached supplemental reissue declaration be accepted under 37 C.F.R. 1.183.

Should the Petitions Officer have any question of form or substance, he or she is encouraged to contact the undersigned attorney at the telephone number and address listed below.

This petition is accompanied by a petition to revive for unintentional abandonment, under 35 C.F.R. 1.137(b).

Dated: September 4, 2009

STATEMENT OF FACTS OF RICHARD A. BRANDON UNDER 37 C.F.R. § 1.47

MS Petition
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Madam:

I, RICHARD A. BRANDON, hereby state as follows:

1. I am authorized as Assistant General Counsel for the University of Michigan to make this statement on behalf of the assignee of the instant application, The Regents of the University of Michigan.

2. I make this statement to provide facts personally known to me concerning the circumstances surrounding the refusal of listed inventor, Ron Kurtz, to sign a new supplemental reissue declaration for the above-identified application.

3. On July 22, 1999, Mr. Kurtz executed the original reissue declaration for U.S. Application Serial No. 09/366,685, which is the parent application to the present divisional application.

4. After prosecution, on February 24, 2004, Mr. Kurtz executed a first supplemental reissue declaration pursuant to 37 C.F.R. 1.175. All other inventors executed the supplemental declaration as well.

5. After further prosecution, on September 15, 2007, Mr. Kurtz executed a second supplemental reissue declaration pursuant to 37 C.F.R. 1.175. All other inventors executed the supplemental declaration as well.

6. In response to additional amendments made after September 15, 2007, I contacted Mr. Kurtz and the other inventors on February 2, 2009 to have them execute a new (now third) supplemental reissue declaration to encompass any errors corrected after September 15, 2007.

7. On February 24, 2009, Mr. Kurtz requested information from me regarding the prosecution history.

8. On March 2, 2009, in response to Mr. Kurtz's request, I sent Mr. Kurtz a communication providing the further prosecution history detail he requested and asking him to sign the third supplemental reissue declaration so that it could be filed, along with the signatures of the other inventors, by the three-month deadline of March 29, 2009. I followed up on March 4, March 18 and March 24, 2009 asking Mr. Kurtz if he required any further information. On March 24, 2009, Mr. Kurtz requested additional information, and on March 25, I provided additional information concerning the prosecution history.

9. On March 25, 2009, Mr. Kurtz sent a communication confirming receipt of my earlier communications and acknowledging the additional information I provided to him regarding the prosecution history. Mr. Kurtz, however, did not sign the third supplemental declaration.

10. On June 16, 2009, I sent Mr. Kurtz a follow-up communication providing yet additional information. And on June 19, 2009, I sent Mr. Kurtz another reminder, attaching the third supplemental declaration and requesting that he execute the same. In the June 19, 2009 communication, I indicated to Mr. Kurtz that if we did not receive the executed third

supplemental reissue declaration from him by June 24, 2009, we would presume he was refusing to sign.

11. On June 23, 2009, Mr. Kurtz sent me another communication asking for information.

12. On June 25, 2009, I sent Mr. Kurtz yet another communication including information from the prosecution history that identified the errors that were sought for correction since the second supplemental declaration that he executed on September 15, 2007. I attached to the communication a listing of claims showing the amendments made after September 15, 2007. In that communication, I indicated to Mr. Kurtz that if we did not receive the executed third supplemental reissue declaration from him by 5:00 EDT, June 26, 2009, we would presume that he was refusing to sign.

13. On June 26, 2009, Mr. Kurtz sent me another communication indicating that he was not able to find an identification of the errors being corrected. Mr. Kurtz again had not signed the third supplemental reissue declaration.

14. On June 29, 2009, in a last attempt to obtain Mr. Kurtz's execution of the supplemental reissue declaration, I sent Mr. Kurtz a final communication, indicating that the errors being corrected were in failing to claim as much as we should have, and indicating that we will assume he is not willing to sign the supplemental reissue declaration.

15. Mr. Kurtz has not responded.

16. I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under 18 U.S.C. § 1001 and that such willful false statements may jeopardize the validity of the application or any patent issuing therefrom.

BROADENING REISSUE APPLICATION
OATH AND POWER OF ATTORNEY BY INVENTORS

As a below-named inventor, I hereby declare that:

(1) my residence, Post Office address and citizenship are as stated below next to my name.

(2) I believe original, first and joint inventors of the subject matter that is described and claimed in Letters Patent Number 5,656,186, granted on August 12, 1997, and in the foregoing specification attached hereto as originally filed on April 8, 1994, and for which invention I solicit a reissue application, are Gerard A. Mourou, Detao Du, Subrata K. Dutta, Victor Elner, Ron Kurtz, Paul R. Lichter, Xinbing Liu, Peter P. Pronko, and Jeffrey A. Squier.

(3) I hereby state that I have reviewed and understand the contents of the above-identified reissue application, including its specification and the claims as amended.

(4) I acknowledge the duty to disclose information which is material to the patentability of this reissue application in accordance with Title 37, Code of Federal Regulations, § 1.56 which I have read and understand.

Broadening Reissue Application Oath
and Power of Attorney by Inventors
U.S. Patent No. 5,656,186
Attorney Docket: UM-939

(5) I further declare that I do not know and do not believe that the invention claimed in the instant reissue application was ever known or used by others in this country before my invention thereof, or patented or described in any printed publication in any country before my invention thereof, or patented or described in any printed publication more than one year prior to the filing date of United States Patent No. 5,656,186, or described in any prior U.S. application in which the invention may have been disclosed, or in public use or on sale in the United States of America for more than one year prior to the filing date of United States Patent No. 5,656,186.

(6) I believe that United States Patent No. 5,656,186 to be partly inoperative. I believe United States Patent No. 5,656,186 is partly inoperative because independent claims 1, 7, 24, 33, 35, 36, and 37 are subject to an unintentionally narrow interpretation and, thus, less than I had a right to claim.

(7) In particular, I believe it was an error to use the term "focusing" in at least claims 1, 7, 24, 33, 35, 36 and 37 because it is subject to a unintentionally narrow interpretation.

(8) I further believe that it was an error to use the phrase "generating a beam of one or more laser pulses" in at least claims 1, 7, 33, 35, and 36 because it is subject to a unintentionally narrow interpretation.

(9) All errors which are being corrected in the present reissue application arose without any deceptive intention.
